EDUCATION

ACE Engineering College   **Nov 2020 - Present**

Computer Science and Engineering   *Hyderabad, India*

- Course Work: Machine Learning, Data Structures, Design and Analysis of Algorithms, Discrete Math, Compiler Design, Database Management Systems, Statistics.

PROJECTS

Mental Health Chatbot (Python)

- This innovative application provided users with a supportive and empathetic virtual companion for mental well-being, offering a safe space for conversation and resources to enhance mental health.
- Contributed to improving user mental health awareness and self-care.
- Designed this application using python and Open CV.

Identifying Fake Profiles across online Social Networks using Neural Networks (Python)

- Engineered a Neural Network-based system to detect fake profiles on various social networks, employing machine learning to analyze user behavior patterns.

FoodZamana (Web Application)

- Designed and developed a user-friendly online food ordering application.
- The application streamlined the ordering process, providing customers with a convenient and efficient way to browse menus, place orders, and make secure payments, resulting in increased customer satisfaction and business revenue.

CERTIFICATIONS & INTERNSHIP

PCAP – Programming Essentials in Python by Cisco Networking Academy.

- The course is for aspiring developers who are interested in pursuing careers in Security, Networking, and Internet-of-Things.

Salesforce Virtual Internship

- Participated in a virtual internship program focused on Salesforce, acquired hands-on experience in Salesforce tools and functionalities
- Developed proficiency in CRM best practices.

SKILLS

- **Programming Languages:** Python, C, Html, CSS, JavaScript.
- **Technical skills:** Full-Stack development, MySQL.
- **Languages known:** English, Hindi, Telugu, Tamil.

ACTIVITIES

- **Solana Hacker House:** Attended Solana Hacker House, a 4-day long hackathon.
